Selection

True stones

Amiamo tutte le nostre pietre, ma alcune di queste ci ispirano di più. In questo catalogo vorremmo presentare la nostra selezione di materiali unici, che rispecchiano la bellezza di tutto il mondo. Grazie all'estrazione nelle nostre cave di proprietà o nelle cave partner, possiamo garantire una fornitura costante e un'ottima qualità.

Wir lieben all unsere Natursteine, aber einige davon inspirieren uns besonders. In diesem Katalog präsentieren wir unsere Selektion an Materialien – einzigartige Steine, die die Schönheit der ganzen Welt widerspiegeln. Durch den Abbau in unseren eigenen Steinbrüchen oder Partnerbrüchen können wir ein solides Vorkommen und beste Qualität garantieren.

We love all our natural stones. However, some of them particularly inspire us. In this catalogue we would like to present our selection of unique stones, which are reflecting the beauty of the world. Thanks to the extraction of the materials in our own quarries and partner-quarries, we are able to guarantee a constant supply and high quality.

Menara Astra, Jakarta

SILVER CLOUD

timeless and versatile

Come il suo nome lascia trasparire, il granito americano Silver Cloud richiama l'idea di una nuvola argentata. Il colore di base chiaro e la struttura movimentata di color grigio argento a seconda del tipo di taglio diventa nuvolata o longitudinale. La sua struttura e il suo colore rendono questo materiale un prodotto particolare e senza tempo. Grazie alle sue ottime caratteristiche tecniche, questa pietra compatta si adatta a vari utilizzi sia per interni che per esterni. Inoltre, grazie alla sua resistenza all'acido e alla sua durezza, il Silver Cloud è ideale anche come piano di lavoro in cucina. Il colore di base uniforme e l'impercettibile differenza in colore e struttura rinvenibile da blocco a blocco, rendono ideale l'uso del materiale su vaste superfici, come ad esempio su facciate e pavimenti.

Wie sein Name bereits andeutet, erinnert der amerikanische Granit Silver Cloud an eine silberne Wolke. Der helle Grundton und die silbergrauen, stark bewegten Aderungen des Granits erscheinen je nach Schneiderichtung gewolkt oder längs fließend. Seine Struktur und Farbe lässt das Material anregend und zeitlos wirken. Dank seiner hervorragenden technischen Eigenschaften eignet sich das Hartgestein für vielfältige Anwendungen im Innen- und Außenbereich. Aufgrund seiner Säurebeständigkeit und Härte ist Silver Cloud auch ideal als Küchenarbeitsplatte. Der konstante Grundton und der unmerkliche Farb- und Strukturunterschied von Block zu Block erlaubt zudem den idealen Einsatz des Materials für großflächige Anwendungen wie beispielsweise Fassaden und Böden.

As its name suggests, the American Silver Cloud granite is reminiscent of a silver cloud. The bright base tone and the silvery, strongly dynamic veins of the granite appear, depending on the cutting direction, clouded or longitudinally flowing. Its structure and colour make the material stimulating and timeless. Thanks to its excellent technical properties, this hard stone is suitable for a wide range of indoor and outdoor applications. Because of its acid resistance and hardness, Silver Cloud is also ideal as a kitchen worktop. The constant base tone and the imperceptible colour and structure difference from block to block also allows the ideal use of the material for large-area applications such as facades and floors.

NERO ASSOLUTO ZIMBABWE

timeless and profound

Uno sguardo al nero profondo del cielo notturno descrive l'eleganza senza tempo del granito africano. Ed è proprio l'inusitata profondità del suo colore a simboleggiare quello che viene definito il "nero assoluto". Il Nero Assoluto Zimbabwe è disponibile in diverse grane: da una struttura molto fine e particolarmente scura, fino a una struttura mediamente fina e più chiara. Per ogni progetto si può individuare la giusta categoria di prezzo e qualità, e ciò rende il materiale ampiamente versatile. Il carattere del Nero Assoluto Zimbabwe è profondo, misterioso, senza tempo e moderno, adattandosi praticamente a ogni ambiente senza alcun limite.

Ein Blick zum tiefschwarzen Nachthimmel beschreibt die zeitlose Eleganz des afrikanischen Granits. Unerreicht in seiner Farbtiefe ist er das Sinnbild für absolutes Schwarz. Nero Assoluto Zimbabwe ist in unterschiedlichen Körnungen verfügbar: von feinkörnig und besonders dunkel bis mittelkörnig und etwas heller. So findet man für jede Projektidee je nach Bedarf die passende Qualitäts- und Preiskategorie, wodurch das Material einen besonders breit gefächerten Anwendungsbereich findet. Der Charakter des Nero Assoluto Zimbabwe ist tiefgründig, geheimnisvoll, zeitlos und modern und kann sich in nahezu jedes Ambiente nahtlos einfügen.

A glance at the deep black night sky describes the timeless elegance of this African granite. Unrivalled in its color depth, it is the symbol of absolute black. Nero Assoluto Zimbabwe is available in different grain sizes: from fine grained and especially dark to medium grained and slightly lighter. The appropriate quality and price category for every project idea can be found, making the material appropriate for a particularly wide range of applications. The character of the Nero Assoluto Zimbabwe is profound, mysterious, timeless and modern, and it can be seamlessly integrated into almost any environment.

AZUL ARAN®

refreshing and exclusive

Il prezioso granito spagnolo Azul Aran dà una sensazione di freschezza ed esclusività grazie ai suoi feldspati grigio-blu e alle ombreggiature bianche. La sua struttura è unica al mondo: grazie alla sua superficie dall'aspetto mosso ogni lastra è irripetibile, come una creazione artistica naturale. Il suo carattere è aggraziato, delicato ed elegante. Grazie alla sua resistenza agli acidi, il materiale funge bene da piano di lavoro in cucina e si presta a numerosi altri utilizzi per gli ambienti interni.

Der hochwertige spanische Granit Azul Aran wirkt durch seine blau-grauen Feldspate und weißen Schattierungen erfrischend und exklusiv. Seine Struktur ist weltweit einzigartig. Durch seine bewegte Struktur ist jede Platte des Materials individuell, wie ein Kunstwerk der Natur. Sein Charakter ist lieblich, zart und edel. Dank seiner Säurebeständigkeit eignet sich das Material unter anderem auch sehr gut für Küchenarbeitsplatten und viele andere Anwendungen im Innenbereich.

The high-quality Spanish Azul Aran granite is refreshing and exclusive due to its blue-grey feldspar and white shading. Its structure is unique in the world. Because of its dynamic structure, each slab of the material is different, like a piece of artwork made by Nature. Its character is lovely, delicate and noble. Due to its acid resistance, the material is also suitable for kitchen worktops and many other indoor applications.
